Tampa, FL 33604

Dear Ralph and Debbie,

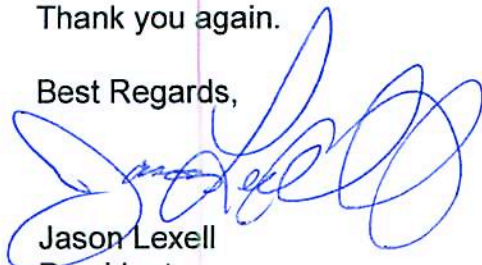

I wanted to thank you for the recent work you performed on my '01 Mercedes E320. While she's getting on in the years (and the miles) she still looks beautiful thanks to your team. The work you performed on the trunk lid (after I was rear-ended) has restored her to better condition than it was in before the accident.

Your attention to detail, with the paint blending and finish, is what amazed me. I'm extremely picky and can find no evidence that the car was ever dented or repainted.

As a fellow small business owner, I have great appreciation for your professionalism and honesty. I will not go anywhere else and have told several friends about you.

Thank you again.

Best Regards,

Jason Lexell
